May Issue

INTRODUCTION

Our regular students are now enjoying their vacation while we prepare for the next semester. Classes are scheduled to run from July 2nd to December 18th, 2022. We will be offering a great selection of academic preparation, required and elective courses at the Grades 9, 10, 11 and 12 levels.

OUR PRIVILEGE TO CELEBRATE LABOUR'S DAY- MAY 2, 2022

“May’ acts as the bridge between spring and summer, hinting at warmer weather for those still stuck in spring’s grasp, while heating things up for those already well on their way.

May is known as a month of transition. If you live in the northern hemisphere, the fresh cold winds are gone, and the rains of early spring are here.

By the time May comes around, the spring flowers are blooming, birds are chirping, and life is starting to seem a little more joyful day by day!

If you’re on the other side of the world, in the southern hemisphere, then it’s a time when summer is long gone. The fall winds have swept by, and the nights are getting colder and darker.

The name May is the modern-day English adaption of the Latin word Maius, which has origins going back to the time of the ancient Greeks. They named the month of May (or Maius) after the Greek goddess of growth.

Labour is the ladder through which human dignity and creative excellence is expressed.

It's time to acknowledge, with gratitude, the invaluable contribution made by our bhaiyas and didis in each Kasigan's life.

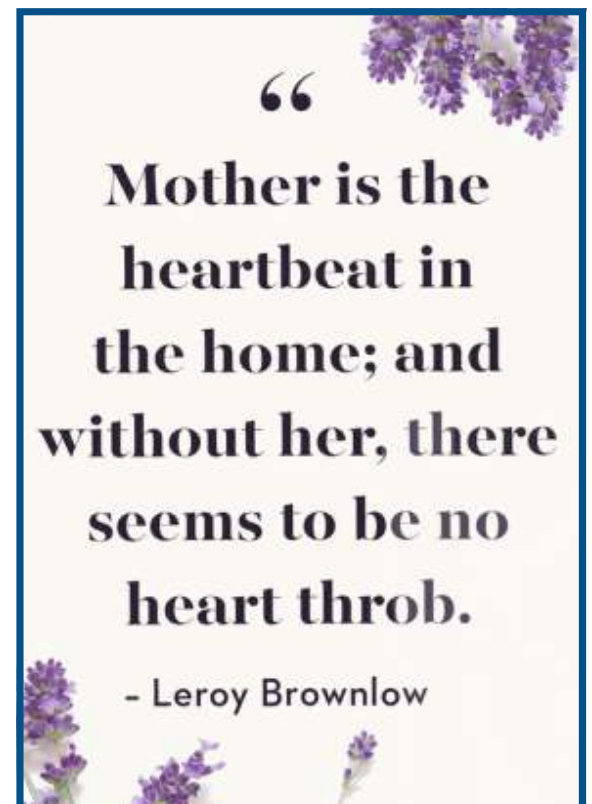

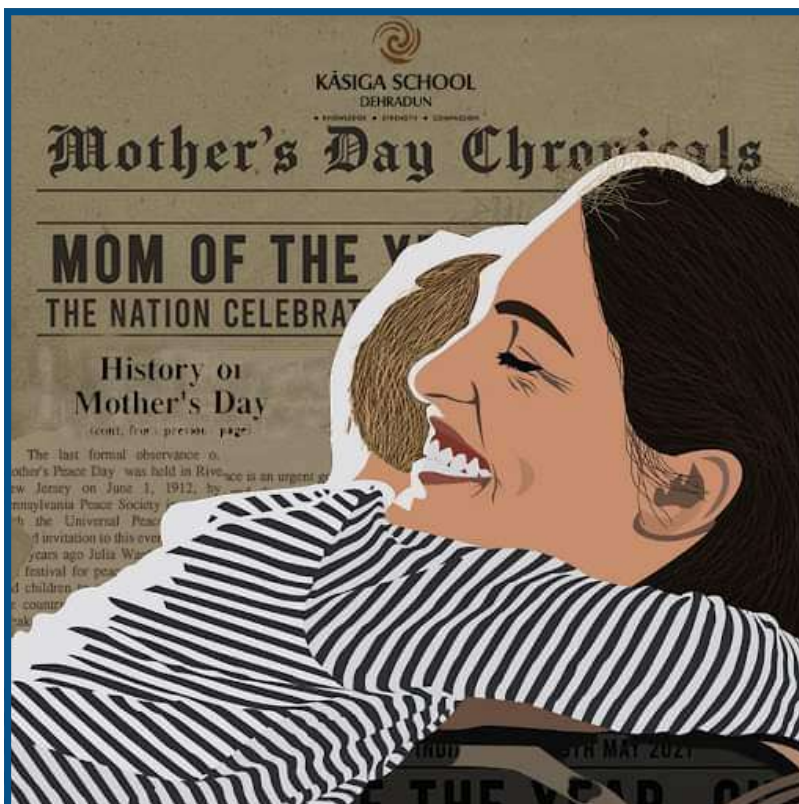

HAPPY MOTHER'S DAY- MAY 5, 2022

We're wishing all the moms out there a very Happy Mother's Day. Thank you for being super women for making the world a better place.

The modern holiday was first celebrated in 1907, when Anna Jarvis held the first Mother's Day service of worship at Andrews Methodist Episcopal Church in Grafton, West Virginia. Andrews Methodist Church now holds the International Mother's Day Shrine. Her campaign to make Mother's Day a recognized holiday in the United States began in 1905, the year her mother, Ann Reeves Jarvis, died. Ann Jarvis had been a peace activist who cared for wounded soldiers on both sides of the American Civil War, and created Mother's Day Work Clubs to address public health issues.

“MOTHERHOOD IS THE BIGGEST GAMBLE IN THE WORLD. IT IS THE GLORIOUS LIFE FORCE. IT’S HUGE AND SCARY – IT’S AN ACT OF INFINITE OPTIMISM.” —GILDA RADNER

HAPPY SCIENCE DAY- MAY 11, 2022

Hope you're having a tech-tastic National technology day!
Let's celebrate the achievements of the people who created it and their fellow innovators today.

National Technology Day is celebrated to commemorate the day when India successfully test-fired its first nuclear bomb in Pokhran, Rajasthan. This event took place on May 11, 1998, and since then, it has been celebrated every year on this date. The main aim of celebrating Technology Day is to spread awareness about the importance of science and technology in our lives. It is also a day to encourage young people to take up careers in science and technology.

SUMMER SPORTS' CAMP

Summer Sports' Camp is important because it offers a structured opportunity for children to grow. Before the kids go from Kasiga to their home to extracurriculars, with each environment contributing to their development. Summer camp, here, is another unique venue for growth, allowing kids to become independent and self-confident, while socializing and becoming more friendly, and even learning new skills. It's always amazing to see just how many students are having a great time with their Summer Sports' Camp experience, it's the benefits and the outcomes; the stories of positive impact that really stand out.

Our camp commenced from 11th May for next three days during which more than ten games and sports activities were practised. Besides, outsourcing the coaches for Table Tennis, Skating, Yoga and Taekwondo, our own sports faculty catered as per the interest and capability of the children in various sports like: Football, Basketball, Swimming and Lawn-Tennis.
